

# Join the Iowa Nurses Association for the 2025 Town Hall Series!

The Iowa Nurses Association (INA) invites you to participate in our 2025 Virtual Town Hall Series, an informal, open forum designed to spark meaningful conversations about the future of nursing in Iowa. These complimentary events offer a unique opportunity for nurses across the state to share insights, voice concerns, and collaborate on innovative ideas to enhance nursing practice and healthcare in our communities.

Our goal is simple: to provide robust support to Iowa's nurses while developing strategic goals and initiatives that align with INA's mission and vision.

## Why Attend?

- **Engage:** Join a vibrant discussion with fellow nurses and share your experiences.
- **Influence:** Help shape initiatives that directly impact nursing in Iowa.
- **Learn:** Discover how INA is actively working to support and advocate for nurses statewide.

These town halls are open to all Iowa nurses, regardless of INA membership status. If you're not yet a member, this is a perfect opportunity to learn more about our work and see firsthand how INA is making a difference.

Your voice matters! Your participation will not only enrich our discussions but also help us craft actionable strategies to improve healthcare for both nurses and patients. We look forward to seeing you there, together, let's build a stronger, more resilient nursing community in Iowa! ■
