

Pulmonary-specialized pharmacy expertise in your community

We designated 19 of our pharmacies as pulmonary-specialized sites. These are located within communities nationwide to serve providers and patients locally.

Inside hospitals

Within the community

In medical offices

Dedicated to improving the pharmacy experience for pulmonary providers and patients

A local single point of contact and face-to-face support

Pharmacists with pulmonary training and expertise

URAC accreditation that reflects our commitment to high-level specialty care*

Extensive access to pulmonary medication at the place of care or near patients' homes

Integrated and enhanced care coordination with area providers

Fast time to therapy with a 48-hour turnaround, often sooner¹

Walgreens Connected Care program to help keep providers informed and patients adherent

Nearly 9,000 pharmacies nationwide offering convenient access to prescription and over-the-counter medications

Contact your Walgreens Specialty Pharmacy representative to learn more.

Walgreens
Specialty Pharmacy

*URAC accreditation does not apply to retail locations.
